For such process the Sponsor shall get the access to all the information and details of the Participant Company in the period prior to the association being fully approved by GREX.

5] Primary Transactions

5.1] Value Assessment:

GREX would encourage companies to first assess its value or the value of the proposed securities it is planning to offer, in the eyes of the potential Investor-Users and GREX Platform can be easily utilized to do so.

The PARTICIPANT COMPANY may use GREX Platform as a strategic tool to assess its value in the eyes of the Investor-Users by doing voluntary disclosures and information exchange. Inputs may be taken from the Investor-Users regarding the value assessment.

5.2] Transaction Readiness:

The Participant Companies should ensure they have all the statutory requisites completed (to be ready to offer the securities that they intend to offer on GREX), prior to triggering their Primary Capital raise process.

No more than authorized/available quantum of securities of the PARTICIPANT COMPANY will be reserved for issuance under the terms of this Agreement. All such securities shall

be validly proposed to be issued and be non-assessable and free of preemptive rights, with no personal liability attached to the ownership thereof. Any non-dilution agreements signed by the Participant Company shall be disclosed to GREX and a formal no objection inter-alia may be required from such respective shareholder(s) for issue of securities on GREX Platform.

5.3] Exclusive Listing:

A Company registering on multiple platforms that are similar to GREX, can lead to utter chaos and confusion, as the Terms of each Platform may be different in terms of expected behavior and performance of the Company and its associated shareholders etc. Therefore, GREX bars its Participant Companies from accessing or registering on any such platforms.

The Participant Company shall not deal or use any other identical/similar medium or any other Platform which may be providing similar services as GREX, fully or partially including getting listed on Stock exchanges in India or abroad, for its securities unless it gets completely and successfully de-registered from the Platform, to avoid any conflict of interest of participants. Strict actions, penalties or any other treatment shall be imposed for such violations.

5.4] No Withdrawal:

GREX would like to ensure that Companies use this platform ethically and not to generate interest or to respond to interest of alternate parties who may have funding interest in the Participant Company. Therefore, to ensure there is conformity and to assure the Investor-Users, GREX would want the Companies not to engage in any security transaction within few months of initiating a Capital Raise on GREX Platform.

The PARTICIPANT COMPANY shall not have the right to renounce the securities once such securities are offered on the Platform. Once the PARTICIPANT COMPANY triggers/initiates the issue of securities on GREX Platform, it shall neither withdraw the issue nor make any other issue of same/similar/any other securities within a period of **3 months** from the relevant date (that is from the date of approval of the issue triggered at GREX or any other date as may be notified by GREX for such purposes) either on GREX Platform or outside the platform. Only in exceptional circumstances as may be applied for and approved by GREX (in the manner as may be specified from time to time), a further issue may be made on or off the Platform before the expiry of a period of 3 months.

5.5] No Discrimination in Offer:

GREX supports the Participant Companies in their Primary Capital Raise process. Accordingly it solicits capital commitments commensurate with the amount of Subscription that Investors are interested in. It is only fair that GREX should therefore also ask the Participant Companies to not exercise any discrimination in its allotment once GREX gives a system generated allocation recommendation from amongst the Investor-Users who have committed capital for the same.

The PARTICIPANT COMPANY will confirm with the Allocation Recommendation forwarded by GREX and agrees to ensure all such Investor-Users who have applied and have been recommended for allocation must be issued the direct offer letter (a Private Placement Offer Letter for Indian Companies) from the Participant Company, and it shall be issued subject to the process laid down for GREX Platform. Any exceptions in complying the same shall be represented to the designated/authorized Officer of GREX with the respective reasons. Such exceptions may or may not be accepted depending upon the sole discretion of the Officer and thereby the Company agrees to comply as per GREX decision and proceed accordingly thereafter.

5.6] Process Compliance:

To ensure there is no confusion in the market, it is required that the Company follows the complete process laid down by GREX. It is also important that other market intermediaries are given expected instructions during the transactions. The Company should ensure that they comply and not issue any contrary, divergent or different set of instructions that may lead to confusion.

Primary Transactions of Securities shall be initiated on every Monday or any other designated dates or days as decided by GREX. The Participant Company agrees with the processes carried by GREX for primary transactions and shall not issue any contrary instructions to its Sponsor and/or to RTA directly or indirectly for any reason whatsoever, to avoid uncertainty. Only upon submission of mandatory documents by the Sponsor and/or the Participant Company, as the case may be, will the funds received by GREX Platform from Investor-Users in primary transactions, be transferred to the Participant Company after completion of complete process on Platform.

5.7] Risk Management:

In order to ensure there is no malafide behavior being effected on the platform, GREX will appoint appropriate risk management measures including a Risk Management team/officer to monitor individual transactions or a series/pattern of transactions. Sometimes if a pattern is detected at a later date or during a later transaction, the appropriate response measures may include partial or full annulment of current and even past transactions as they may have been done maliciously.

GREX through its Designated/Authorized Officers will reserve the right to investigate the transactions as and when deemed necessary and decide regarding the same (including but not limited to cancellation, annulment or suspension of one or more on-going or completed transactions). For any transactions which are under way, such decisions would only mean non-clearing of the transaction. Corrective steps/actions of past transactions may be taken as per the discretion of the Designated/Authorized Officers and policies of GREX.

5.8] Sole Rights to Corrective Actions:

GREX should be able to take corrective actions and get it executed by the various participants including the Participant Companies when it has reasons to take such actions.

Such a healthy and transparent market will ensure fair price discovery and in turn foster growth of Companies, its shareholders and investors in multiple ways. Therefore, it is necessary for GREX to ensure that the market remains free-float and there is very minimal interference from the Companies in the exchange of securities pertaining to the Companies.

To not reject any secondary transactions happening on GREX Platform, which are executed as per approved process, in the usual course and common form. It will enable, entertain and validate without interference free float of its securities on the Platform due to which they are freely exchangeable, tradable, unrestricted, bought and sold freely between the Investor-Users in present and future on the Secondary Market at GREX, atleast as long as the company remains registered on GREX Platform. The Participant Company shall not interfere with and shall enable the process or the secondary transactions on the Platform by its existing (and prospective) shareholder Investor-Users, in the interest of all Investor-Users and for their benefit. The Participant Company shall have to bear the expenses of transactions of its securities on GREX Platform, as may be billed to it directly by the various service providers or indirectly through/by GREX. The Participant Company, however may exercise its right to freeze transactions or its securities which are free floated, provided a prior clear consent and approval of GREX is obtained.

(b) Updated Shareholding Information:

For a fair and transparent market, it is a pre-requisite that all transactions regarding any securities that a Participant Company executes, whether done on or off the platform, be announced to the Investor-Users at GREX. This will help Investor-Users assess the impact of the event on their security positions and to take decisions and actions, if any, accordingly.

To furnish a copy of its updated Shareholding pattern and Capital in lieu of any type of securities (irrespective of the event leading to the alteration of capital taking place on or off the Platform) to GREX Platform at pre-specified intervals in general and on immediate basis in case of any transactions having been executed (no longer than **24 hours** from the transaction execution date and time), in the interest of all its participants. The Participant Company gives irrevocable consent to GREX to approach the Registrar and Transfer Agent (RTA) for any such information from time to time, to enable and enhance creation of a complete transparent ecosystem.

Therefore GREX should have exclusive rights to Freeze/Unfreeze all registry books and respective ISINs (International Security Identification Number) of the Company before, during and after such transactions or during any investigations as may be needed.

GREX can completely exercise the right to freeze/unfreeze the securities (one or multiple or all ISINs in one or all Depositories, locally or abroad) and order partial or total Book Closure to the RTA in primary or secondary transactions in accordance with the procedure and the standardized process and subject to the restrictions laid down under the Rules, Regulations and Bye-Laws of GREX Platform. The securities may also be frozen/unfrozen or registry books closed/frozen on instructions of GREX when, while and after any investigation of the Participant Company is being done or any extraordinary or unforeseen circumstances arise and when required to be done for any reasons as GREX may deem fit as it has the responsibility of its Investor-Users. Any reversible action for such decision of freezing/unfreezing in normal or exceptional circumstances shall be the sole right of GREX. GREX shall take its best endeavor to take actions on immediate basis in such regards.

6.3] Violation of Applicable Laws:

GREX may de-register the Participant Company from GREX Platform anytime without prior notice if required due to reasons including but not limited to non-compliance of any provisions, non-payment of any fees/charges, violation of mandatory requirements, getting listed on any Stock Exchanges within India or abroad. Therefore, GREX expects that the Participant Company has executed the necessary allied covenants for swift functioning.

Termination or non-entering into any allied covenants which may be required, mentioned and upgraded from time to time including their grace period of performance and compliance as per policies of GREX, would deem to mean the suspension of registration of the Participant Company.

10.5] Impact of De-Registration:

Termination of this Agreement or de-registration of the Participant Company for whatever reasons shall not be deemed to lead the termination of allied covenants with associated parties.

10.6] Effect of De-registration on Secondary Transactions:
